Customer's Business
Leading suppliers of Plastic Injection Moulding Machines and CNC Machine Tools.

"We did try another accounting company but found Burgis & Bullock to be more personable and flexible."

About Romi UK

Romi Machines UK Ltd is the UK arm of Brazil's largest machinery manufacturer. They are one of the leading manufacturers and suppliers of specialist injection moulding machines in Europe. The company is expanding rapidly in the UK and Europe. They are committed to providing excellent after sales care for all their machines and stock a huge number of spare parts so the equipment they sell can be maintained and downtime avoided.

The Challenge

Poor audit quality, lack of traceability records and lost working papers, these were just some of the issues Marcel Machado had to contend with when, understandably, they were tempted by the promise of 'quality service and lower prices'.

Fortunately for Romi Machines, Marcel knew when things were not going as well as they should. A good Audit protects everyone; however, it relies on robust systems and processes, a minimum requirement is good working papers and traceability.

"We have used another company as well and they just couldn't deliver the same level of service as Burgis & Bullock."

CASE STUDY

The Solution

When Marcel realised what was missing he took swift action in finding the most obvious solution. Having previously used Burgis and Bullock's Audit services, Romi Machines and Marcel were fortunate in knowing where to go to for the expert guidance, professionalism and attention to detail they needed. Wendy Hubbard, Senior Partner at Burgis and Bullock heads up the Corporate Services division, including audit and business advice for local and international companies as well as charities and not for profit organisations.

The results:

Wende's expertise and first-hand experience and a particular focus on the engineering and manufacturing sector, allowed her to offer practical and technical advice whilst sharing invaluable insight with Romi Machines UK Ltd.

Reason for choosing Burgis & Bullock over other providers:

"You get what you pay for."
